Course title: Italian Intermediate B1.1 - Online

Course descriptor/objectives

The aim of the course is to help the learner to become an independent user of the target language and to develop their communication skills for social and professional purposes. Therefore, by the end of the course (B1.1 and B1.2) participants will be able to:

- understand the main points of clear standard input on familiar matters regularly encountered in work, school, leisure, etc.
- deal with most situations likely to arise whilst travelling in an area where the language is spoken.
- produce simple connected text on topics which are familiar or of personal interest
- describe experiences and events, dreams, hopes & ambitions and briefly give reasons and explanations for opinions and plans.

Participants will further develop reading, listening, speaking and writing skills through a series of task-oriented sessions and will be provided with informal formative feedback during contact hours. The completion level of the course is broadly equivalent to the *B1.1* level of the Common European Framework.

In seminars, participants will have to engage in practical exercises and group interaction in order to develop relevant language-specific learning strategies. The role of the instructor is to facilitate this process, to provide useful tools and to

encourage participants to become independent learners and basic users of the languages too.

Language-specific information:

Italian is spoken by around 85 million people worldwide, with approximately 67 million native speakers in Europe, making it one of the most widely spoken national languages in the EU. It is an official language in Italy, Switzerland, San Marino, and the Vatican, and there are significant Italian-speaking communities in many other countries, including the United States. The British Council has also identified Italian as one of the ten most important languages for the UK in its *Languages for the Future* report.

Italian is strongly associated with rich cultural traditions in art, music, and cuisine, and many Italian terms have become part of international vocabularies through these fields.

Derived from the Latin of the Roman Empire, Italian retains many linguistic features that reflect this heritage. Historically, varieties of Italian used by medieval trading powers also served as an important lingua franca across the Mediterranean, leaving a lasting influence and contributing loanwords that persist today.
